Re: Administrative Review Complete - WY22427-12116, Brinkerhoff 3A

Dear Mr. Yalung:

Your application submitted to the U.S. Environmental Protection Agency Region 8 Underground Injection Control (UIC) program office to permit the above referenced well has been received. EPA has determined that the contents of the permit application are present but has made no determination concerning the technical adequacy of the application.

Pursuant to Title 40 of the Code of Federal Regulations section 124.6, the Director will prepare a draft decision to either issue a permit or deny the permit application. EPA will issue a public notice of the draft decision. You will be notified by letter regarding publication of the public notice for the 30-day public comment period and the opportunity for a public hearing. Following closure of the public comment period, the Director will address public comments and issue the final UIC permit decision.

If you have questions regarding progress on your UIC permit application, please contact Christopher Brown at (303) 312-6669 or Brown.Christopher.T@epa.gov.

Sincerely,

9/9/2021

X Douglas Minter

Douglas Minter
